Summary

I am software developer with a passion for developing innovative programs that expedite the efficiency and effectiveness of organizational success. I am well-versed in technology and writing code to create systems that are reliable and user-friendly. I have proven ability to motivate, educate, and manage a team of professionals to build software programs and effectively track changes. I am confident communicator, strategic thinker, and innovative creator to develop software that is customized to meet a company's organizational needs, highlight their core competencies, and further their success.
